About Mentone Girls’ Secondary College

At Mentone Girls’ Secondary College, we are focused on ensuring the curriculum is personalised to meet the individual needs of our students. The integrated teaching program at Year 7 allows students to express their learning in different ways. The 1:1 eLearning program comprises an iPad program for Year 7 and 8 students and a netbook program across other year levels.

The college is dedicated to nurturing and supporting young women in a single sex environment so that they can develop the confidence and knowledge to reach their full potential. Our staff encourages students to explore the many educational opportunities provided both within the school and into the future.

The college is committed to fostering student health and wellbeing and addressing issues relating to self-esteem and resilience. We have adopted a proactive approach to online safety, as well as physical and mental wellbeing issues.

Mentone Girls’ Secondary College values the development of the whole person and offers a broad-ranging co-curricular program, in the areas of leadership, sport and music, among others. The international student program, language study tours to France and Japan, and participation in the World Challenge program provide opportunities for students to gain a global perspective.

Our college has excellent physical resources to support continuing improvement in learning and teaching.
